

**United Church of God, *an International Association*
Council of Elders Quarterly Meeting Report
Milford, Ohio**

Monday, December 9, 2024

Chairman Tim Pebworth called the morning session to order at 9 a.m. Eastern. Paul Wasilkoff opened the meeting with a prayer. Eleven council members were present, and John Elliott joined via Zoom.

Mr. Pebworth began with a few personal opening comments. He then presented the August meeting minutes for approval, which were unanimously approved. He then reviewed the week's agenda, which was also unanimously approved. Mr. Pebworth then turned the floor over to Rick Shabi for the President's report.

President's Report: Rick Shabi

Mr. Shabi opened his report by sharing some personal thoughts and several scriptures that he felt perfectly framed his experiences over the last two years in his current position and what he will discuss in his presentation.

- Proverbs 27:23, “Be diligent to know the state of your flocks, and attend to your herds.”
- Proverbs 24:27, “Prepare your outside work... and afterward build your house.”
- Psalm 127:1, “Unless the Lord builds the house, they labor in vain who build it...”
- Ecclesiastes 9:10, “Whatever your hand finds to do, do it with your might...”
- Ephesians 4:16, “from whom the whole body, joined and knit together by what every joint supplies, according to the effective working by which every part does its share, causes growth of the body for the edifying of itself in love.”
- Proverbs 3:5-6, “Trust in the LORD with all your heart, and lean not on your own understanding; in all your ways acknowledge Him, and He shall direct your paths.”
- Matthew 28:19-20, “Go therefore and make disciples of all the nations...”

As Mr. Shabi read each scripture, he commented on the value these biblical principles bring to the Church and the time it takes to implement them as God desires. He said there is much to learn; even though we are a small Church we have a significant, worldwide work. He mentioned that he has learned much from the travels that he, Steve Myers, and Darris McNeely have made through the many different environments worldwide, seeing firsthand where the brethren live, their needs, strengths, and challenges.

Mr. Shabi mentioned that many things have already been accomplished, but in these travels, they have learned that there are many more areas of concern that we need to address. He noted that it's apparent that we are still learning, but we know that God will teach and guide us in how He wants this work done. He commented that the only way to know where God wants us to focus our efforts is to let Him lead. In return, we must keep that humble spirit, submit to His will, and always trust Him.

Mr. Shabi stated that God is providing opportunities for preaching the gospel in all nations more effectively now than what've done previously. He commented that they have witnessed what God

has supplied through many new tools, advancements in technology, and the eagerness of the membership to be involved. He added that making disciples is something that we need to focus on more; when everyone plays a part, we're doing God's work, not our own.

Mr. Shabi then discussed what has taken place since the last council meetings and provided a few statistics along with some personal thoughts on each item. He commented that if a question or comment arises at any point during the presentation, feel free to speak up.

- Ambassador Bible College (ABC)
 - 26th ABC Class
 - 32 Students
 - Youngest class so far (most under 20)
- Feast of Tabernacles
 - 13,592 in-person attendance (highest since pre-COVID-19)
 - Very positive experiences were reported
 - 69 total Festival sites worldwide
 - Between 500-700 Panama City Beach web connections
 - 215 Klamath Falls connections
 - 1,200 Sabbath webcast connections

New international Feast sites this year:

- Bangladesh: 35 in-person attendees
- Pakistan: 35 in-person attendees
- Myanmar: ? on number of attendees
- Burundi: 441 in-person attendees across five locations
- Madagascar: 58 in-person attendees
- Italy: 308 in-person attendees

Mr. Shabi noted that the Feast is a good indicator of the Church's spiritual condition. People attend; it's warm and friendly, and they embrace it. It indicates that the membership worldwide believe in God, believe that this is the true Church, support the work, and know the truth.

- Ministerial and Members Services
 - Four new Ministerial Trainees were hired.
 - Still have the budget to hire more trainees.
 - Visited all U.S. regions and many international regions.

Mr. Shabi commented that the fields are white for harvest, and we need more workers worldwide. If pastors have those who they can recommend, he encourages them to do so. He asked that we all pray about that because the need is great. There are people God is calling, and we need those who will serve them. He also noted that there will be a pastoral class for the new hires in Cincinnati in January.

- International

Mr. Shabi commented that the purpose of the travel over the last few months was not to see sights but to meet the people and assess the needs and conditions of the members worldwide. He noted that it was an eye-opening experience, changing his perspective on what can and needs to be done. He added that American-focused messages don't always work effectively in other parts of the world; we must learn their culture and understand their background if we are to serve them properly

and effectively. He emphasized that we need to be attuned to their specific needs, know how to best meet them, understand how they operate, and reach them with hope. The people need it, and God expects it to be addressed.

He stated that it's apparent that there are international areas we have not even tried to reach before. He explained that this doesn't mean God will call people in those areas, but we have the responsibility and duty to do so, and God has provided the resources necessary to preach the gospel. We plant and water. God provides the increase.

Mr. Shabi stated that what has been learned from their recent travels means nothing if we don't do something with it. He suggested that perhaps we could fund an Asian or African ABC, staffed with ABC alumni to provide the biblical education these countries are seeking. He reported that training programs modeled after what is done in the United States are scheduled for next year in Central and South America. He commented that some training programs have already occurred in Mexico City, with 85 in attendance. Later this month, a four-day workshop in Europe will take place. He also noted that the South African teen camp will start in a week or two with many young adults assisting as staff.

Regarding the international media updates, Mr. Shabi reported that the Hong Kong and Myanmar websites have been completed and are operational. You can find those websites (along with all others) on the home page of ucg.org.

- Marketing/Media/Public Proclamation

Mr. Shabi commented that it is a different world than it was 5-10 years ago. We tend to get set in our ways. However, technology is changing, and we must learn how to use and access it. He then stated that one of the things we must keep in mind is that what we do on the website and our publications are for the public—for the world. He stated that we must learn how this younger generation reaches out for information if we are to effectively provide what the world needs. He said that we have members in our congregations who have excellent technical skills and can help in many areas. We are developing networks of those who would like to help in various ways. He mentioned that three successful members in marketing, internet, SEO, and social media voluntarily came and gave a one-day seminar to the Home Office staff engaged in media. It was very professional and very energizing, and it helped us see where we can go when we learn and embrace each other. He reminded us of Ephesians 4:16 and how God provides all we need through the people He calls.

Mr. Shabi then discussed the new Reels (YouTube videos) and Shorts (Instagram videos) and their results. He noted that the numbers are good, but it has to be more than just getting the numbers. He asked, "How is it impacting those who watch them? What is driving them to our landing page? What do we give them that answers what they are looking for? What is the end result we hope to achieve, as God leads, with these?"

As this portion of the presentation concluded, Mr. Shabi asked, "Do we believe what we are doing – in what we are doing – in the Church – are we on the same page? If so, we would see God do what He wants with the work. When we are in unity with God, He will bless us. People can tell if we truly believe in our product. When they see what we believe, and know that we believe it, they will respond and seek what God wants of them.

- Website
 - After three years of hard work, the new UCG website is up and running. However, it has been met with challenges and questions.
 - This website will be dynamic, changing constantly to stay relevant to what's going on in the world and address what people are looking for.

Mr. Shabi then took a few minutes to talk about the Strategic Plan. He gave a few updates on the areas that highlight the direction the Church seeks to go under "Organizational Stewardship." He gave a few personal comments on these areas we are working on. Knowledge, as Daniel wrote, is increasing. There is so much out there we need to be aware of. We need to know what is going on in our congregations. We need to understand what people are seeking on the website from the United States and international perspectives. We also need to learn how to engage various generational age groups. We have all those already in the Church. They can help us define and answer our questions concerning our age groups' needs. What brought them here? How did they get here? Why are they staying? Not what we think, but through their eyes. He noted that we have already had a few of those focus groups. We need to ensure we are putting forth that effort to reach and engage their needs. We must make sure we have a resource out there where they can find the answers.

Mr. Shabi then opened the floor for any further questions and comments before turning the floor back over to Chairman Pebworth.

Chairman Pebworth then turned the floor over to the Operational Managers for their reports.

Operation Manager Reports:

Ministerial and Member Services (MMS)—Steve Myers

Mr. Myers began by quoting a scripture that he felt was the theme of his report: Psalm 126:3, "The Lord has done great things for us, and we are glad." He expressed that this passage beautifully captures the heart of our mission. He stated that we are instruments in God's hands, and when we humbly submit to Him, trusting in His guidance, great things are possible.

He reported that significant progress and positive outcomes have been achieved due to the diligent effort of those involved. He noted that it's clear that we are advancing toward fulfilling God's vision for His Church, which fills us with confidence as we look forward to continued progress. Mr. Myers then highlighted several key aspects of the "Congregational Care" strategic directives that have been completed and those that are currently in progress.

Mr. Myers then took the time to acknowledge that while there are many positive outcomes to report, the journey hasn't been without its difficulties and obstacles, which highlights the need to refine our approach and strengthen our resolve. He also stated that some progress is slow as many of the strategic directives we've implemented are part of a much larger, long-term vision. Many of which require continual refinement and attention. He mentioned that the work we're doing today lays the foundation for outcomes that will extend beyond this year's scope, and we're also mindful of the larger, continuous work ahead, knowing that the journey is far from over.

Mr. Myers then presented an update on two directives from the Strategic Plan; develop additional parenting resources to assist in teaching our children and facilitate member education and spiritual growth by providing specialized educational materials. He reported that progress has been slow, but a capable team of volunteer educators in the Church is working on this. He then shared some of the focused efforts of the team:

- Develop lesson standards for ages 5-18.
- Curate materials we presently have, which helps identify needs and requires a review/edit process.

Mr. Korthuis then reviewed the financial report and concluded his presentation by saying, "We are doing great!" He then opened the floor for any questions and comments.

Media and Communications Services—Peter Eddington

Mr. Eddington began by passing out a Media and Communications Services report. He mentioned that any success is to be credited to God. Before presenting the report, he quoted Mark 16:15, "And He said to them, 'Go into all the world and preach the gospel to every creature.'"

He then presented the following results for the 2024-2025 Strategic Plan Accomplishments, Goals and Challenges:

Committee Chairmen Reports:

Doctrine Committee (DC)—Mario Seiglie

Mr. Seiglie reported that the DC has completed the following three projects that were remanded by the COE:

- The review of a submitted prophecy paper alleging that the two witnesses are actually only one witness. It was unanimously not approved by the Doctrine Committee. The result will be reported to the Council of Elders. A letter was sent to the author explaining the decision and its reasons.
- A review of a doctrinal paper alleging that, when on very rare occasions, Passover occurs on a Sabbath, instead of having the wave sheaf offering occur immediately afterward and therefore falling during the Days of Unleavened Bread, the author argues that the wave sheaf offering should be done on the following Sabbath, outside of the Days of Unleavened Bread period. The Doctrine Committee, after a careful review, unanimously did not support the author's explanation, so a letter was sent mentioning this decision and the reasons.
- The Doctrine Committee also reviewed a doctrinal paper alleging that tithing is not a binding law for Christians. After a careful review, the Doctrine Committee did not find the

arguments biblically convincing and unanimously rejected the paper. The Doctrine Committee prepared a letter, which is being sent to the author.

Mr. Seiglie then turned the floor over to Jorge de Campos to present some minor edits to the study paper, “The Hebrew Calendar,” Appendix, page 74. He explained why the edit was needed and presented the section that was edited. A few comments, questions, and suggestions were discussed. A motion was made to accept the changes, and the edits were unanimously approved.

Mr. Seiglie then reported that the DC has only two more projects on the docket. He turned the floor over to the chairman.

Members on the DC: Jorge de Campos, John Elliott, Mario Seiglie (chair) and Rex Sexton.

Roles and Rules Committee (RRC)—Dan Dowd

Mr. Dowd reported that they only have two items that will directly involve the Roles and Rules Committee in the upcoming council meetings and that neither of these items involved the Committee meeting before these meetings.

- Assessment of the Treasurer
- Repopulating the amendment Committee

He then stated that the other standing items before the Roles and Rules Committee—a review of Policies 4.4.3 and 1.7.6—have been discussed by the RRC and are ready to be brought before the COE.

Mr. Dowd mentioned that the RRC has some other items to work on and will start in January. Those items are:

- Review Point 12 in Elder Recommendation (4.5.1.1)
- Review policies pertaining to posting and removal of website content
- Propose updates to our Bylaws to reconcile all approved GCE and COE resolutions

Members on the RRC: Scott Ashley, Dan Dowd (chair), and Len Martin.

Media Committee (MC) — Paul Wasilkoff

Mr. Wasilkoff began by reporting that the MC has held three meetings since the August council meetings. The last meeting was to preview what would be presented during these December meetings.

Mr. Wasilkoff shared the scope of the MC’s first standing task as a committee to seek clarification on how to fulfill it. He stated that the administration offered their thoughts in a previous meeting, and the MC is now seeking the Council’s input. The Council then discussed this request, gave their thoughts on the current statement, and suggested possible ways to clarify. It was decided to discuss this further in an Executive Session.

Members on the Media (MC): Scott Ashley, Jorge de Campos, Len Martin, Victor Kubik, and Paul Wasilkoff (chair).

At 12 p.m. the Council took a break for lunch.

Chairman Pebworth called the Council to order at 1:00 p.m. and Aaron Dean Opened with prayer. He then introduced Michael Cullum and Brett Kohlmayer – partners at Clark Schaefer Hackett – to present the next item on the agenda, the Review of the 2023-2024 Audit.

After passing out the audit analysis, Mr. Cullum gave a brief introduction. He then presented the results of the 2023-2024 audit. He began by reporting that the audit resulted in an unqualified opinion, there were no significant deficiencies or weaknesses in internal controls, no audit adjustments, no disagreements with management, and no difficulties in performing the audit. He then reviewed the audit results document with the Council. Mr. Cullum then asked the Council if there were any questions or comments about the audit, changes in regulations in the coming years, and included some discussion regarding the ongoing risks surrounding cyber security.

Chairman Pebworth then introduced Dan Dowd for the following items on the agenda: Review of Policies 1.7.6—Admittance to the General Conference of Elders and 4.4.3—Sexual Misconduct Policy and related policies. Mr. Dowd began with Policy 1.7.6 and briefly explained why these need to be edited. He then presented the suggested edits and opened the floor for discussion. After addressing questions and comments, it was decided that the Policy be remanded back to the Roles and Rules Committee along with the suggestions for further edits.

Mr. Dowd then presented Policy 4.4.3—Sexual Misconduct Policy and Youth Protection Guidelines. He briefly explained why this was being brought to the Council before presenting the policy with the suggested edits. As he reviewed the document, Mr. Dowd opened the floor for questions, comments, and suggestions. After an in-depth discussion, it was determined that the policy be remanded back to the Roles and Rules Committee with the assistance of Legal and Human Resources to reevaluate the entire policy and address the concerns and suggestions that were brought forth.

Chairman Pebworth then introduced Charles Melear to present the next item on the agenda, GCE 2025 Planning. Mr. Melear began by passing out a handout of those elders who were present at the 1995 Indianapolis Conference. He then explained that 2025 is the 30th anniversary of UCG. The 25th anniversary was during COVID-19 and was not acknowledged. He then presented thoughts and ideas of possible plans to recognize this upcoming 30th anniversary. He then led a discussion about the history of the birth of the UCG meetings. He expressed his thoughts on why sharing the history and official narrative of those there would be exciting and informative for the elders who were not there to experience it. After an in-depth discussion, Charles requested additional funds to be added to the budget for the 30th anniversary plans. Chairman Martin suggested thinking about this overnight and discussing this in further detail tomorrow in the executive session.

At 3:15 p.m. the Council went into planned Executive Session.

At 6:02 p.m. the Council came out of Executive Session and adjourned for the day.

Tuesday, December 10, 2024

Chairman Tim Pebworth called the morning session to order at 9 a.m. Eastern and the meeting was opened with prayer by Victor Kubik. There were eleven council members present. John Elliott joined via Zoom.

Mr. Pebworth then turned the floor over to Darris McNeely to present the first item on the day's agenda, the Strategic Planning and Finance Committee Report.

Strategic Planning and Finance Committee (SPFC)—Darris McNeely

Mr. McNeely stated that the Council had remanded one item to SPFC during the August meeting: a review of the Local Church Building Policy. Mr. McNeely reported that the SPFC held two meetings to discuss this item, in which they were able to complete a review and rebuild of the Local Church Building Policy. He also stated that this was done with the help of the treasurer, Barry Korthuis, and the Administration. Mr. McNeely then briefly reviewed what was being presented as the result of the review. He then presented the Policy to the Council. As the policy was reviewed, the floor was opened for any questions, comments, or suggestions.

Mr. McNeely also presented the TCO (Total Cost of Ownership) analysis spreadsheet, which will be used in conjunction with the Building Policy. He then asked Barry Korthuis to briefly explain the purpose of the TCO spreadsheet. After further discussion, it was determined that the policy should be further edited based on the suggestions received. The SPFC will present the updated Policy on Thursday for the Council's approval.

Members of the SPFC: Scott Ashley, Aaron Dean, Len Martin, Darris McNeely (chair), and Victor Kubik

Ethics Committee—Rex Sexton

Mr. de Campos began with a brief background and then gave an update on the strengths and opportunities of the Angolan church:

- Comply and preach according to UCGs Fundamental Beliefs.
- Observe all Holy Days and preach the gospel of Jesus Christ and the Kingdom of God.
- There is no legal or governmental objection to preaching the gospel.
- Availability of elders.
- Young Adult leaders who are capable of preaching the gospel in social networks, radio, studies, and other humanitarian works (three served in Brazil's Feast of Tabernacles).
- Clips/reels/shorts of sermons are getting many views.
- Pastoral visits have been very encouraging (Note the perception that they were alone).
- Grateful for the spiritual help in the form of the *Boa Nova* Magazine, booklets, and hymnals.
- Schools provide a good name in their communities.
- Good relationships with several city/provincial and governmental religious leaders – opened doors to preach the gospel (radio).

Mr. de Campos then spoke about some of the weaknesses and threats they are facing as well:

- Church legalization.
- Degree of spiritual depth. They're committed to truth, but biblical education is needed.
- Financial constraints and social-economic difficulties are affecting the preaching of the gospel.
- Unfinished halls – corrugated iron.
- The office is not functional as it is not furnished/equipped. Needed when the Church is registered for local governmental visits/inspections.
- Not able to preach the gospel via radio because of financial constraints.
- Land donated by the government in Luanda (Zango 3 district) is in danger of being lost (the government requires them to develop or lose the land).

Mr. de Campos then shared a few goals that the elders of Angola have:

- Implement online courses to teach sound doctrine.
- Welcome a UCG minister for the Feast of Tabernacles.
- Implement youth biblical studies.
- Implement national YA and ladies' meetings.
- Get the new office functional.

- Preach the gospel via radio nationwide.

Outcomes of the meeting with Rick Shabi:

- Monthly assistance to help them with ministerial transport expenses so that they can further preach the gospel and serve the brethren throughout Angola.
- Request budget to complete the furnishing of their office building in Vidorul, Luanda (Council approved in August 2024).
- Request budget to construct a wall around their property in the Viana area, Zango 3 district, Luanda (Council approved in August 2024).
- Request to construct a national church hall in the Viana area, Zango 3 district, Luanda. This project would be part of a request to Good Works.
- Request to purchase land near Huambo for their annual observance of the Feast of Tabernacles. This project would also be part of an additional request of Good Works.

Key items from the Angolan National meetings:

- Legalization process: 1,450 signatories so far; submitting in December to INAR.
- Ministerial visits are in progress.
- Zango 3 – walls and gates installed and septic tank installed.
- Plans are being drawn for a meeting hall in Zango 3.
- National Office: Funds received and materials purchased in December.
