September 11, 2025 israelnationalnews.com reported: "The IDF confirmed on Wednesday that the IAF struck military targets belonging to the Houthi terrorist regime in the areas of Sanaa and Al Jawf in Yemen. Among the targets struck are military camps in which operatives of the terrorist regime were identified, the Houthis' Military Public Relations Headquarters, and a fuel storage facility that was used by the terrorist regime for terrorist activity.

The IDF noted that the strikes were conducted in response to attacks by the Houthi terrorist regime against the State of Israel, including launching UAVs and surface-to-surface missiles toward Israeli territory. At over 2,350 km (~1460 miles), this was the longest flight by IAF jets since the war began. More than ten fighter jets participated in the strike, dropping over 30 munitions on 15 targets. In addition, the jets refueled mid-air several times during the operation.

The Houthi Public Relations Department is responsible for distributing and disseminating propaganda messages in the media, including speeches of the Houthi leader Abd al-Malik and the spokesman Yahya Sari's statements. ‘Prior to the strike, measures were taken in order to mitigate harm to civilians, including the use of precise munitions and additional intelligence.’

‘The IDF and ISA will continue to operate with determination in order to defeat the Hamas terrorist organization responsible for the October 7th massacre,’ the military’s statement concluded.”
