## **Iran coordinating with Hamas, Hezbollah to rebuild 'Axis of Resistance,' Israeli officials warn**

*November 20 2025* **jpost.com** reported: “Israeli defense officials assess that Hamas is closely coordinating with Hezbollah and Iran to revive and rebuild the so-called ‘axis of resistance,’ while the IDF expands strikes in Gaza and southern Lebanon, officials said on Thursday.

The assessments follow an IDF operation that killed the Zeitoun Battalion commander in Gaza and a series of recent airstrikes in Lebanon, raising questions over potential rocket fire from Gaza and Israel's next steps on the northern front. According to officials, US pressure is, for now, restraining a sharper Israeli response to Hezbollah's ceasefire violations. According to Southern Command sources, Hamas's military wing has been rebuilding its force since the ceasefire took hold, gathering intelligence, recruiting and training operatives, and preparing for escalation..."

## **North Korea says Seoul-US sub deal will trigger 'nuclear domino' effect**

*November 19 2025* [spacewar.com](http://spacewar.com) reported: “North Korea denounced an agreement between Seoul and Washington to build nuclear-powered submarines saying in a state media commentary on Tuesday that the deal would cause a ‘nuclear domino’ effect.

South Korean President Lee Jae Myung announced the finalization of a long-awaited security and trade agreement with the United States last week, including plans to move forward with developing atomic-powered vessels. Seoul said it had secured ‘support for expanding our authority over uranium enrichment and spent-fuel reprocessing’.

In its first comments responding to the deal, the nuclear-armed North fired back that the submarine programme was a ‘dangerous attempt at confrontation’.

The agreement is a ‘serious development that destabilizes the military security situation in the Asia-Pacific region beyond the Korean peninsula and causes the situation of impossible nuclear control in the global sphere,’ said the commentary carried by the official Korean Central News Agency (KCNA) on Tuesday.

South Korea's possession of nuclear submarines 'is bound to cause a 'nuclear domino phenomenon' in the region and spark a hot arms race', Pyongyang added. It also said 'the DPRK (North Korea) will take more justified and realistic countermeasures,' due to the two countries' 'confrontational intention'..."

### **South Korea proposes first military talks with North in years**

*November 17 2025* [spacewar.com](http://spacewar.com) reported: "South Korea proposed on Monday talks with Pyongyang to avoid border clashes, the first such offer in seven years as Seoul seeks to ease military tensions with the nuclear-armed North.

Citing recent incursions by North Korean troops, Kim Hong-cheol, deputy minister for national defence policy, told a news briefing that military-to-military channels can help avert an escalation.

'To prevent accidental clashes and ease military tensions, our military officially proposes that the two sides hold inter-Korean military talks to discuss the establishment of a clear reference line for the MDL,' he said, referring to the military demarcation line on the border. ### **Liberal Protestant churches proclaim 'holiness' of transgenderism, rebuke Catholic bishops**

*November 14 2025* [christianpost.com](http://christianpost.com) reported: "Several liberal Protestant and Jewish denominations declared transgenderism 'holy' this week in direct rebuke of a vote by the U.S. Conference of Catholic Bishops (USCCB) to bar transgender procedures in Catholic healthcare facilities.

'During a time when our country is placing their lives under increasingly serious threat, there is a disgraceful misconception that all people of faith do not affirm the full spectrum of gender — a great many of us do,' read the Wednesday statement, which included signatures of leaders from The Episcopal Church, the Presbyterian Church (USA), the United Church of Christ (UCC), the Unitarian Universalist Association, the Union for Reform Judaism, an association of Quakers and others.

'Let it be known instead that our beloveds are created in the image of God — Holy and whole,' the statement said of transgender-identifying individuals. 'Our scriptures vary, but they share a common conviction,' the statement continued. 'As we make justice our aim, we must give voice to those who are silenced. Our shared values, held across many faiths, teach us that we are all children of God and that we must cultivate a discipline of hope, especially in difficult times.' The statement went on to suggest that opposing transgenderism is sinful, reiterating the belief that transgender, nonbinary and intersex individuals are intrinsically holy, which is the only attribute of God magnified to the third degree of repetition in the Bible..."
