*December 18, 2025 jpost* reported: “The United States on Wednesday approved \$11.1 billion in arms sales to Taiwan, the largest ever US weapons package for the island, which is under increasing military pressure from China.

The Taiwan arms sale announcement is the second under US President Donald Trump’s current administration, and comes as Beijing ramps up its military and diplomatic pressure against Taiwan, whose government rejects Beijing’s sovereignty claims.

The proposed arms sale covers eight items, including HIMARS rocket systems, howitzers, Javelin anti-tank missiles, Altius loitering munition drones, and parts for other equipment, Taiwan’s defense ministry said in a statement.

“The United States continues to assist Taiwan in maintaining sufficient self-defence capabilities and in rapidly building strong deterrent power and leveraging asymmetric warfare advantages, which form the foundation for maintaining regional peace and stability,” it added...

“The security approach I have long advocated is simple: since October 7, we cannot pursue a policy of containment,” Tibon said. He criticized the government’s approach, arguing that “Netanyahu’s reckless policy allowed Iran to build a ring of fire around us. What threatens us must be struck.”

*Major General Noam Tibon*

Tibon stressed that if Iran resumes activity that endangers Israel, the country must act preemptively. “If Iran becomes active in a way that threatens the State of Israel, it must be attacked before it becomes a direct threat,” he said. He called for adopting a strategy of preventive war to stop threats from gaining strength near Israel’s borders. “The security concept I promote must include preventive action, to prevent monsters from growing next to our border and to ensure that nothing like October 7 ever happens again,” he explained...

The violations included the establishment of ammunition storage facilities, weapons manufacturing activities, and operational efforts by terrorists aimed at strengthening and rebuilding Hezbollah’s military capabilities.

Israel submitted 875 enforcement requests to the US-led ceasefire enforcement mechanism. The LAF addressed approximately two-thirds of those cases, handling 575 violations, a level of enforcement Israel considers insufficient. The son was investigated in 2019 — reportedly over ties to ISIS — but was cleared after six months, officials said.

The two men’s identities and histories were publicized as Australia, its Jewish community and the wider Jewish world continued to grapple with the fallout from the attack, which was one of Australia’s bloodiest shootings in history and the deadliest antisemitic massacre outside Israel since October 7, 2023. According to Australia’s *ABC* outlet, both gunmen are believed to have pledged allegiance to the ISIS terror group.

An official from the country’s Joint Counter Terrorism Team told the outlet that an ISIS flag had been found in their car close to the attack, and police said Sunday that an improvised explosive device was found in a car linked to one of the attackers...”

#### **NATO chief says a joint plan to end Ukraine war would ‘test’ Putin**

*NATO Chief Mark Rutte*

*December 15, 2025 spacewar.com* reported: “NATO chief Mark Rutte said Thursday that if the United States and Europeans could agree on a plan to end the war in Ukraine, this would be a ‘test’ of whether Russia ‘really wants peace’.

‘So far, (Russian President Vladimir) Putin has only played the peacemaker when it suits him, to buy time to continue his war,’ Rutte said in a speech in Berlin. US President Donald Trump ‘wants to end the bloodshed now’ and is ‘the only one who can get Putin to the negotiating table’, Rutte said. ‘So, let’s put Putin to the test. Let’s

see if he really wants peace, or if he prefers the slaughter to continue.’

Ukrainian officials on Wednesday said they had sent Washington an updated plan for ending Russia’s invasion, building on a 28-point proposal made by US President Donald Trump last month. The original plan, which involved Ukraine surrendering land that Russia has not captured, was seen by Kyiv and its European allies as caving into too many of Russia’s hardline demands...”
