BIBLICAL GEOGRAPHY HELPED IN THE CONVERSION OF SIR WILLIAM RAMSAY (1850-1939)

Luke is such an accurate historian that William Ramsay, (1851-1939) an atheist professor from Oxford, set out to prove Luke's account contained many errors and myths. He spent 20 years in his quest in the Middle East, yet, after all those years of checking Luke's account, he admitted defeat and surprised the world by becoming a Christian. He wrote a classic book on Paul called *St. Paul the Traveler and the Roman Citizen*.

As Ramsay wrote, “Luke is a historian of the first rank, not merely are his statements of fact trustworthy, he is possessed of the true historic sense...In short, this author should be placed along with the very greatest of historians” (*The Bearing of Recent Discovery on the Trustworthiness of the New Testament*, 1919, p. 80).

So, Biblical Geography is important to our faith and knowledge!
